A NEW Medium from Jacquard!

Clear Extender Airbrush Medium

Healdsburg, CA (October 18, 2016)

Create your own airbrush colors!

Clear Extender Airbrush Medium

4 fl oz/118 ml (Item JAB2150) - \$5.99 *MSRP*

[Clear Extender Airbrush Medium](#) is a non-pigmented binder system that dries clear. Like Jacquard Airbrush Colors, it has excellent adhesion on a variety of surfaces, superior flexibility that resists cracking & peeling on fabric & leather, and is unsurpassed for ease of spraying.

Add Clear Extender Airbrush Medium to Jacquard [Airbrush Colors](#) to increase transparency, dilute color and extend the mileage of the paint without affecting viscosity or compromising its adhesive properties.

OR use for a variety of purposes:

- Thin Jacquard and other thick acrylic paints to decrease viscosity for spraying.

- Use as a textile medium to modify artist or craft acrylics to improve washfastness and durability when applied to fabric.
- Use as a protective topcoat on any paintable surface.
- Use as a base for mixing custom colors from dispersed or powdered pigments such as [Pearl Ex](#).

Turn any acrylic paint into an airbrush color!

Jacquard now sponsors two professional teams of celebrity sneaker painters: [@JacquardUSA](#) and [@JacquardTeamEUOfficial](#). Sneaker painters love Jacquard paints because they are durable, flexible, resist cracking & peeling and adhere well to many different surfaces, from leather to spandex.

Jacquard [Airbrush Colors](#) are particular favorites among sneaker painters because they are the only airbrush colors available with these unique attributes.

With the new [Clear Extender Airbrush Medium](#), Jacquard is giving sneaker artists and airbrushers a powerful new tool that opens up a world of possibilities. Now artists can create their own airbrush colors from any pigment or acrylic they like!

Work in progress by [@PeteKoh](#): commission for Pittsburgh Steelers star Antonio Brown
