Jacquard Products will no longer offer Cernit Polymer Clay

Healdsburg, CA (December 16, 2013)

Jacquard Products regrets to announce that we will no longer be distributing Cernit Polymer Clays. Our partnership with Cernit, a Belgian company with one of the oldest and most trusted names in polymer clay, has been a long and fruitful one. We are very sorry to let it go and apologize in advance for any inconvenience this change may cause our dealers.

While we will not be getting any more shipments of clay from Belgium, we still have a significant amount of clay in inventory. We will continue to sell it while supplies last. This could be your last chance: **stock up on [Cernit](#) while you still can!**

For those of you interested in finding a new source for Cernit Polymer Clays, we are currently investigating options. Please [contact us](#) to let us know you are interested, and we will forward your interest to the new distributor, if and when we find one.

Bright Future for Jacquard!

That all being said, this marks an exciting new era in policy for Jacquard Products: moving forward, we will only be offering product lines we manufacture ourselves, right here in Healdsburg, CA.

In other news...

We just released 8 new Chromatic **Pearl Ex** Colors!

These colors are bright, luscious and intense, with highly saturated, pure chromas. The Pearl Ex range now extends from the most metallic pigments on the market to the brightest, most vibrant pearlescents possible. [Click here](#) for item number and rack details. *Order now!*
