Create Customized Ribbon at Home

Introducing *iPrint Ribbon™* from Jacquard Products

Healdsburg, CA (July 2013) - Jacquard is pleased to announce iPrint Ribbon™!

What if you could make a digital print onto a ribbon, at home, using your own desktop printer? Would gift-giving ever be the same? What message would you write?

With Jacquard's new iPrint Ribbon™, you can print custom messages and designs on ribbon in a flash, at home, with no special equipment or software. That's right: ribbon just got personal!

Available in 12 colors and two sizes, iPrint Ribbon™ is the new addition to a family of Jacquard inkjet products. Like our inkjet fabrics, iPrint Ribbon™ comes adhered to paper so that it will feed easily through your printer, just like printer paper. It has been treated with a special coating that allows for no-fuss inkjet printing. We've also developed an [online design program](#) that makes designing and printing your ribbon as easy as 1-2-3.

iPrint Ribbon™ is available in 3 yard and 10 yard rolls. Our 7/8" polyester ribbons come in twelve colors, while the larger, 1.5" ribbons come in two. The ribbon is suited for ANY INKJET PRINTER. Our online design program makes it easy to print messages or graphics in any dimension!

Next time you wrap a gift or tie a bow in your hair, remember: now you can

make it personal!

Learn more at www.jacquardproducts.com and www.iprintribbon.com.

Note: Printed ribbon is NOT washfast.
