Now Available: Henna in Bulk!

Healdsburg, CA (July 2015) Jacquard is proud to now offer henna in bulk sizes! We've offered a Mehndi Henna Kit for ages, but now it's time to go big! [Henna](#) is a natural colorant made from the dried leaves of the *Lawsonia inermis* shrub. It has been used for thousands of years for body art, especially in India, where it is known as Mehndi.

Jacquard's [Mehndi Henna Kit](#) makes a great introduction to this natural tattooing technique; however, for seasoned henna artists, large henna parties and events, it is

more practical to buy henna in bulk quantities. Henna produces a beautiful reddish-brown color and for millennia has been associated with good luck, good health, fertility, sensuality, positive energy and wisdom.

Henna can be used on most protein fibers: skin (mehndi), fingernails, hair, leather, even silk and wool.
