## YouCAN

### Refillable Air Powered Spray Can

Healdsburg, CA (July 25th, 2017)

*Have you ever wanted to be able to fill a spray can with your favorite paint, medium or liquid? **Now...YouCAN!***

*Have you ever wished you could reuse your spray cans instead of throwing them away? **Now...YouCAN!***

*Have you ever wanted to be able to spray your own, custom mixed colors? **Now...YouCAN!***

*Have you ever wanted to use compressed air in your spray cans instead of irritating propellants? **Now...YouCAN!***

VIDEO - YouCAN Refillable Air Powered Spray Can

Jacquard's new [YouCAN](#) is the first ever refillable air powered

spray can that **looks and feels just like a regular aerosol can.**

It can be filled with **ANY liquid** and used over and over again!

Easy-to-use:

1. Fill the can with the medium of your choosing
2. **Pressurize with a bike pump or compressor**
3. Spray!

*When it runs out, start over and do it again!*

**YOU  
CAN**

**Great for applying:** paints, dyes, inks, adhesives, water, alum solution, cyanotype sensitizer, fixatives, cleaning solutions, and much more.

**Environmentally friendly:** No propellant or solvent. No empty can disposal. Continuously reusable. Can be used indoors without odor or fumes.

The **Adapt-Air coupling** (exclusively available from Jacquard) may also be used to rescue leftover material from normal aerosol cans that have lost pressure.

#### NOTES:

- Compatible with practically any common cap.
- Provides at least 1 to 1.5 minutes of continuous spraying
- **Do not exceed 100 PSI of pressure.** The recommended pressure is 50-70 PSI. This is the pressure that best simulates traditional aerosol cans.
- Do not open while under pressure.

*Pump used with Adapt-AIR coupling*

- Do not re-pressurize until all pressure is exhausted from the can. To exhaust pressure, turn can upside and depress until nothing comes out.
- Do not fill more than 1/3 full of liquid (approximately 5oz).
- For ages 12+

## **YouCan** Refillable Air Powered Spray Can

Item ACC8000 - \$25.99 SRP
