

Bulk Henna Mixing instructions:

For the Citrus/Sugar Solution:

Mix the sugar and the citric acid 3 parts sugar to one part citric acid. Add enough water to make a thin 'syrup'.

This will be used to moisten the henna design after it has dried. (See standard instructions)

For the Henna Mixture:

For each bottle of Henna mix two teaspoons henna, $\frac{1}{4}$ teaspoon eucalyptus oil and $\frac{3}{4}$ teaspoon water. Mix thoroughly for about five minutes.

See standard instructions to continue.
